TL;DR VERSION

A creative professional and design entrepreneur specialised in omni-channel design. Vast professional experience across demanding roles and high-profile client projects. Expertise in Strategic Design, Visual Communication, Design Systems, and Accessibility. My skills also include Service Design, moving-image/motion design, and workshop facilitation.

I have worked with clients such as ALMA, City of Helsinki, DNA, Elisa, Finnair, Fiskars, Intrum, Kesko, Metso, Nokia, Nordea, Osuuspankki, Sanoma, SOK, Stora Enso, the Finnish Customs, the Finnish Transport Agency, and UPM, among many others.

BACKGROUND

I am a versatile product and service designer with over 15 years of experience. I graduated with a BA (Hons) from the University of Cumbria (UK) in 2008. In 2009, I continued my studies toward a master’s degree in Graphic Design at the University of Helsinki (TaiK). For the 15 years, I have worked with clients in the IT, retail, and cultural sectors, as well as at software, design, and advertising agencies in the Helsinki area.

I see design as a tool to solve clients’ business problems and end users’ needs, without forgetting the aesthetic side and the finely tuned details that matter in visual communication. Art and design have always been a passion of mine—now a full-time profession and, admittedly, a bit of an obsession. I’m meticulous and committed to high-quality work. I prefer accessible, insightful, validated, and data-driven design processes; clear visual hierarchies; and thought-provoking yet playful design that communicates clearly.

I do my best to take an active role in the design community, facilitating workshops, writing articles, and lecturing on design and design systems. ●

Petri Lahdelma
LEAD DESIGNER
